Bonus Categories: Bonus surface water quality buffer area; conservation easement

2. This is a Waterways 2000 application, solicited by the Natural Resources Division.
3. The applicant intends to file a conservation easement and will receive credit for that if it is recorded. In addition, the applicant has executed a "lot line adjustment" through the Department of Development and Environmental Services, merging two parcels. The conservation easement credit will be granted to the entire aggregated parcel.
4. Except as modified herein, the facts set forth in the King County Department of Natural Resources, Natural Resources Division Preliminary Report to the King County Hearing Examiner for the March 19, 1996 public hearing are found to be correct and are incorporated herein by this reference. Copies of the said Report will be attached to the copies of this Report submitted to the King County Council.

CONCLUSIONS:

1. Approval of current use valuation for 6.95 acres of the subject property, pursuant to the Public Benefit Rating System adopted by King County Ordinance No. 10511, would be consistent with the purposes and intent of King County to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of King County and its citizens.
2. Timely application has been made to King County for the current use valuation of the subject property to begin in 1997. Notice of said application was given in the manner required by law.
3. The subject property contains priority open space resources and is entitled to bonus points pursuant to the King County Public Benefit Rating System, which justify a total award of 21 points. The resulting current use value is 20% of market value for 6.95 acres of the subject property.

RECOMMENDATION:

APPROVE the request of HEATHER POE AND CRAIG WRIGHT for current use valuation of 20% of market value for 6.95 acres of the subject property, subject to the following conditions:

1. The applicant shall provide to the King County Assessor a legal description, or adequate information to enable the Assessor to develop a legal description, of the improved portion of the property which shall remain assessed at 100% of market value, and the portion of the subject property (6.95 acres) which shall be assessed at its current use valuation.
2. Current use valuation shall be subject to all terms and conditions of RCW 84.34 and King County Code Chapter 20.36, as the same may be amended from time to time, and all regulations and rules duly adopted to implement State law and County ordinances pertaining to current use valuation.
3. Within thirty (30) days of the date of approval of this application by the King County Council, the applicant shall sign an agreement which accepts the conditions of approval set forth herein and meets the requirements of WAC 458-30-240. The following conditions shall be specifically set forth in the agreement:
  - (1) Failure of the owner to comply with these conditions shall be basis for removal, by King County, of the current use designation, in which case the land shall be subject to the penalty, tax, and interest provisions of RCW 84.34 and assessed at true and fair value. The County Assessor and the Natural Resources Division may reevaluate the property to determine whether removal of the open space designation is appropriate. Removal shall follow the process in RCW 84.34.108.
  - (2) Revisions to this agreement may only occur upon mutual written approval of the owner and granting authority.
  - (3) The open space classification for this land will continue as long as it is primarily devoted to and used for the purpose of protecting open space. Classification will be removed if dedication to this purpose ceases to exist. A change in circumstances which diminishes the extent of public benefit from that generally outlined in the Natural Resources Division Preliminary Report to the King County Hearing Examiner will be cause for removal of the current use assessment classification. It is the owner's responsibility to notify the Assessor of a change in circumstance.
  - (4) When a portion of the open space land is withdrawn or removed from the program, the Natural Resources Division and the Assessor shall reevaluate the remaining land to determine its continued qualification under the program. If the remaining portion meets the criteria for priority resources, it may continue under current use taxation.
  - (5) Except as otherwise stated in this agreement, there shall be no alteration of the open space land or resources. **Any alteration may constitute a change of use and subject the property to the additional tax, interest, and penalty provisions of RCW 84.34.080.** "Alteration" means any human-induced action that adversely impacts the existing condition of the open space land or resources including but not limited to the following:
    - a. erecting structures;

- b. grading;
  - c. filling;
  - d. dredging;
  - e. channelizing;
  - f. modifying land or hydrology for surface water management purposes;
  - g. cutting, pruning, limbing or topping, clearing, planting, introducing, relocating or removing vegetation, however, selective cutting may be permitted for firewood;
  - h. applying herbicides or pesticides or any hazardous or toxic substance;
  - i. discharging pollutants except stormwater;
  - j. paving, construction, application of gravel;
  - k. storing of equipment, household supplies, play equipment, or compost;
  - l. engaging in any other activity that adversely impacts the existing vegetation, hydrology, wildlife, wildlife habitat, or other open space resource.
  - m. (Walking, horseback riding, passive recreation or actions taken in conjunction with a resource restoration plan, or other similar activities are permitted.)
- (6) Subject to the conditions and restrictions set forth in Section 5, the following uses, activities and alterations are permitted, following receipt of written approval as set forth below:
- a. In areas which have become infested by noxious weeds, the owner shall submit a control and enhancement plan to the King County Natural Resources Division and local jurisdiction for approval prior to removing the weeds.
  - b. In areas invaded by non-native invasive species, replacement with native species or other appropriate vegetation may be allowed subject to approval of an enhancement plan by the King County Natural Resources Division.
  - c. Trees posing a hazard to structures or major roads may be removed. Any trees removed must be replaced.
- (7) There shall be no motorized vehicle driving or parking allowed on the open space land with the exception of along driveways.
- (8) Grazing of livestock shall be prohibited on the open space land.
- (9) For land classified as farm and agricultural conservation land, activities which are consistent with farm or agricultural uses shall be permitted as long as

those activities do not conflict with limitations required by other awarded categories.

- (10) Revisions to these conditions may only occur upon mutual written approval of the owner and Granting Authority. These conditions shall apply so long as the property retains its open space designation or until a conservation easement is granted to King County or an approved grantee by the applicant or his successors or assigns.

Upon recording of an approved conservation easement, conditions contained in this recommendation shall be automatically superseded and replaced by conditions contained within the approved easement.

RECOMMENDED this 29th day of March, 1996.
